Member Supported

The waterfall is one of our most visited spots

We often hear what a jewel River Bend Nature Center is to the community. We certainly believe that - and witness every-day the power this place has on the children, families and adults who visit here.

We estimate that

over 35,000 people benefit from River Bend each year!

In order to provide the opportunities we do, River Bend depends on membership support. As a private non-profit, we do not receive any regular federal, state or municipal funding to run our program.

While many people believe that we are part of the City of Faribault park system, we are not - therefore membership is a primary source of steady funding to underwrite our quality education, research and conservation.

“no regular federal, state or municipal funding”

“how very important every membership is”

Frankly, we couldn't exist without our members.

River Bend Nature Center is one of Faribault's greatest assets! We have nearly 750 acres of green space for people to

You're never too young to learn about nature.

enjoy wholesome, educational family fun. Our quality of life is enhanced when we have a place to go to commune with nature and unwind.

If you value the role River Bend plays in our

community - for tourism, education, recreation and environmental stewardship - we would ask you to consider becoming part of the River Bend Nature Center membership family. It is impossible to communicate how very important every membership is to River Bend - and how much your support would mean to River Bend.

Visit our website www.rbnc.org for more information about River Bend Nature Center and the vital role we play in the community.

Joining our River Bend family today has never been easier or more affordable. Use the form on the back of this brochure or visit us online at www.rbnc.org to become a member today.
